Simulator / Facility

Trainees will have access to our bridge simulator to acquire the required skills in helmsmanship and w
JMS full mission shiphandling simulator provides a training environment based on an actual ship b
navigation operations performed onboard a ship. It can be programmed to simulate different shi
conditions, and environment. Other practical exercises are conducted in our mooring workshop which
deck work maintenance tools and equipment.

Reasons to Attend the Course

This course provides training for senior deck ratings and other ratings with potential for promotion to seni
to develop their leadership, management, communication and technical skills to ensure safe and
operation. At the end of this training, trainees will gain a good understanding of the minimum standard
required in Section A-II/4 and Section-II/5 of the STCW Code 1978, as amended, such as helmsmansh
rope handling, knots and splices, deck work maintenance, pumping of bilges, and anchor works.
