Barko International, Inc.
In-house Training Center

MARINE HIGH VOLTAGE TRAINING COURSE OPERATIONAL LEVEL

2 TRAINING DAYS
(1 DAY LECTURE
1 DAY PRACTICAL)

**MAXIMUM OF
12 TRAINEES
PER SESSION ONLY**

**OPEN FOR LICENSED MANAGEMENT
LEVEL ENGINE OFFICERS
AND ELECTRO TECHNICAL OFFICERS
WITH MALOVO CERTIFICATE**

**ENTITLED TO
A CERTIFICATE
OF COMPLETION**

Simulator / Facility

A full scale Terasaki High Voltage simulator that lets trainees operate the MLVO switchboard as if they were being used for training. Equipped with real VCBs, fully functional switches and gauges, and real-time reaction alarms, and functionalities through the GAC POD, the simulator provides trainees the actual experience of working onboard vessels with high voltage switchboards. The equipment also includes actual testing equipment like a voltage insulation tester and vacuum checker for periodic maintenance and troubleshooting activities of the switchboard.

Reasons to Attend the Course

This course covers topics on the high voltage electrical technology, application, safety, and basic maintenance onboard ships with written/practical exercises in operating and basic testing of high voltage equipment in Sections A-III/1 and A-III/6, and with Tables A-III/1 and A-III/6 of the STCW Code.
