

The **MOL Training Center (Phils.), Inc.** was established in 1993 as a non-stock, non-profit organization aimed at providing the shore-based personnel and seafarers training to develop skills necessary for the safe and competent performance of their work functions. It is a maritime training center built and established under the main sponsorship of Mitsui O.S.K. Lines Co. of Tokyo, Japan with the active participation of MMM Philippines which mainly performs the manning side of operation.

The training center is equipped with Diesel Engines, a Reefer Container Unit, PC-based Tanker, LNG, and Turbine simulators, a Main Engine Remote Control Simulator and Marine Electrical System, a Deck and Engine Work Shop, etc., making it the leading institution for seafarer training in the Philippines. The center is in commitment of MOL to continuously train its seafarers to impart the necessary skills and knowledge. MOL Training Center is dedicated to deliver highly trained, competent seafarers to satisfy the needs of our customer and MOL Ship Managers.
