A CERTIFICATE
OF COMPLETION**

Simulator / Facility

This course utilizes a Japan Marine Science Full Mission (JMS) Bridge Simulator that is integrated with the latest and navigational equipment like Furuno ECDIS FMD3300, Furuno ARPA FAR3320, JRC NeCST, PT900 Yokogawa Gyro Repeater, FM-8900S VHF Radio-Telephone, Inter-phone, VHF ICOM IC-F5023, Multi-Functional Navigation Console, Navigational Console for engine telegraph, thruster control, switch and alarm display, P2219H Overhead Scout Virtual Binocular among others. It also uses a 17-screen display system that could be used in simulating berthing and

Reasons to Attend the Course

The course introduces concepts that would help Masters and watch officers frame their decision-making process toward safe watch keeping conditions. Trainees who successfully complete this course will gain a greater understanding of effective utilization of all resources (human and technical), bridge procedures in all vessel states, benefits of building up a common sense, how to reduce risks of marine incidents/accidents, situational awareness, and the necessary attitude and behavior for safe watchkeeping. The course is compliant with IMO Model course 1.22 Regulation II/I section A II/I, COLREGS 1972 and VIII/2 section A-VIII/2, 1978 STCW Convention and Code for safe watchkeeping procedures. The additional modules on basic ship handling are designed to meet the minimum requirements included in the STCW 95 Regulation II/1 and II/2 function of "Navigation in the operational level, respectively."
